“ Dan and I enjoyed fishing together and having a beer or two. I helped Dan and Ray when Ray built the extension on the house he and Linda would be sharing . Dane and I both grew up in NYS. He was older then me by 8 years and growing up use to pick on us younger kids and I hated him for that. I thought I would never like him, but when he moved to Missouri in 85 or 86 (sorry guys it wasn't 78) we started fishing together and a closer bounding for us began. We became friends and I was proud to call him my Cousin. I will miss you old friend, keep the bait fresh. I can't wait to go fishing again. God Bless you I miss you. I will pray for the family
