“ *This Golden Glove boy was a roommate and partner to me in 2000-2004. He loved competing in Arm wrestling events where he once beat an entire college frat party. I swear he ran up trees and glided atop highrises. William was a person that I am holding onto as the heroic, strong, powerhouse storm his essence was known to induce in life. The Bill Dopler chased the storms. I followed him and never feared. Thank you Billy. with love from the Wiggins family*

“ *Our deepest condolences - we tried and tried to get him on his feet. He loved his motorcycle. So sad.*
